

PRODUCT NAME : DB9 Male to Male Data Cable

PRICE : Rs 125.00

SKU : RM0979

DESCRIPTION

The DB9 serial cable is a cable used to transfer information between two devices using a serial communication protocol. The form of connectors depends on the particular serial port used.

Features of DB9 Male to Male Data Cable:

- Wired straight through for extending serial devices/peripherals.
- 360 degree fully shielded for protection against EMI/RFI.
- Plated contacts provide reliable connections with repeated mating cycles.
- Hex nuts on female connectors are removable to expose 4-40 thumb screws.
- DB9 male to male connectors; length --- 1.5 mtr; color is light gray.
- Our fully molded D-Sub serial cables offer solid performance at economical prices. All cables combine a foil shield construction and PVC jacket for flexibility and reliability.
- Fully molded hoods with thumbscrews.
- Straight thought pin out.

Applications of DB9 Male to Male Data Cable:

- RS-232 serial communications.
- Test and measurement applications.
- Uninterruptible power supply communications.
- Data Networking.
