

PRODUCT NAME : Line Follower Kit Using Arduino Uno

PRICE : Rs 3,000.00

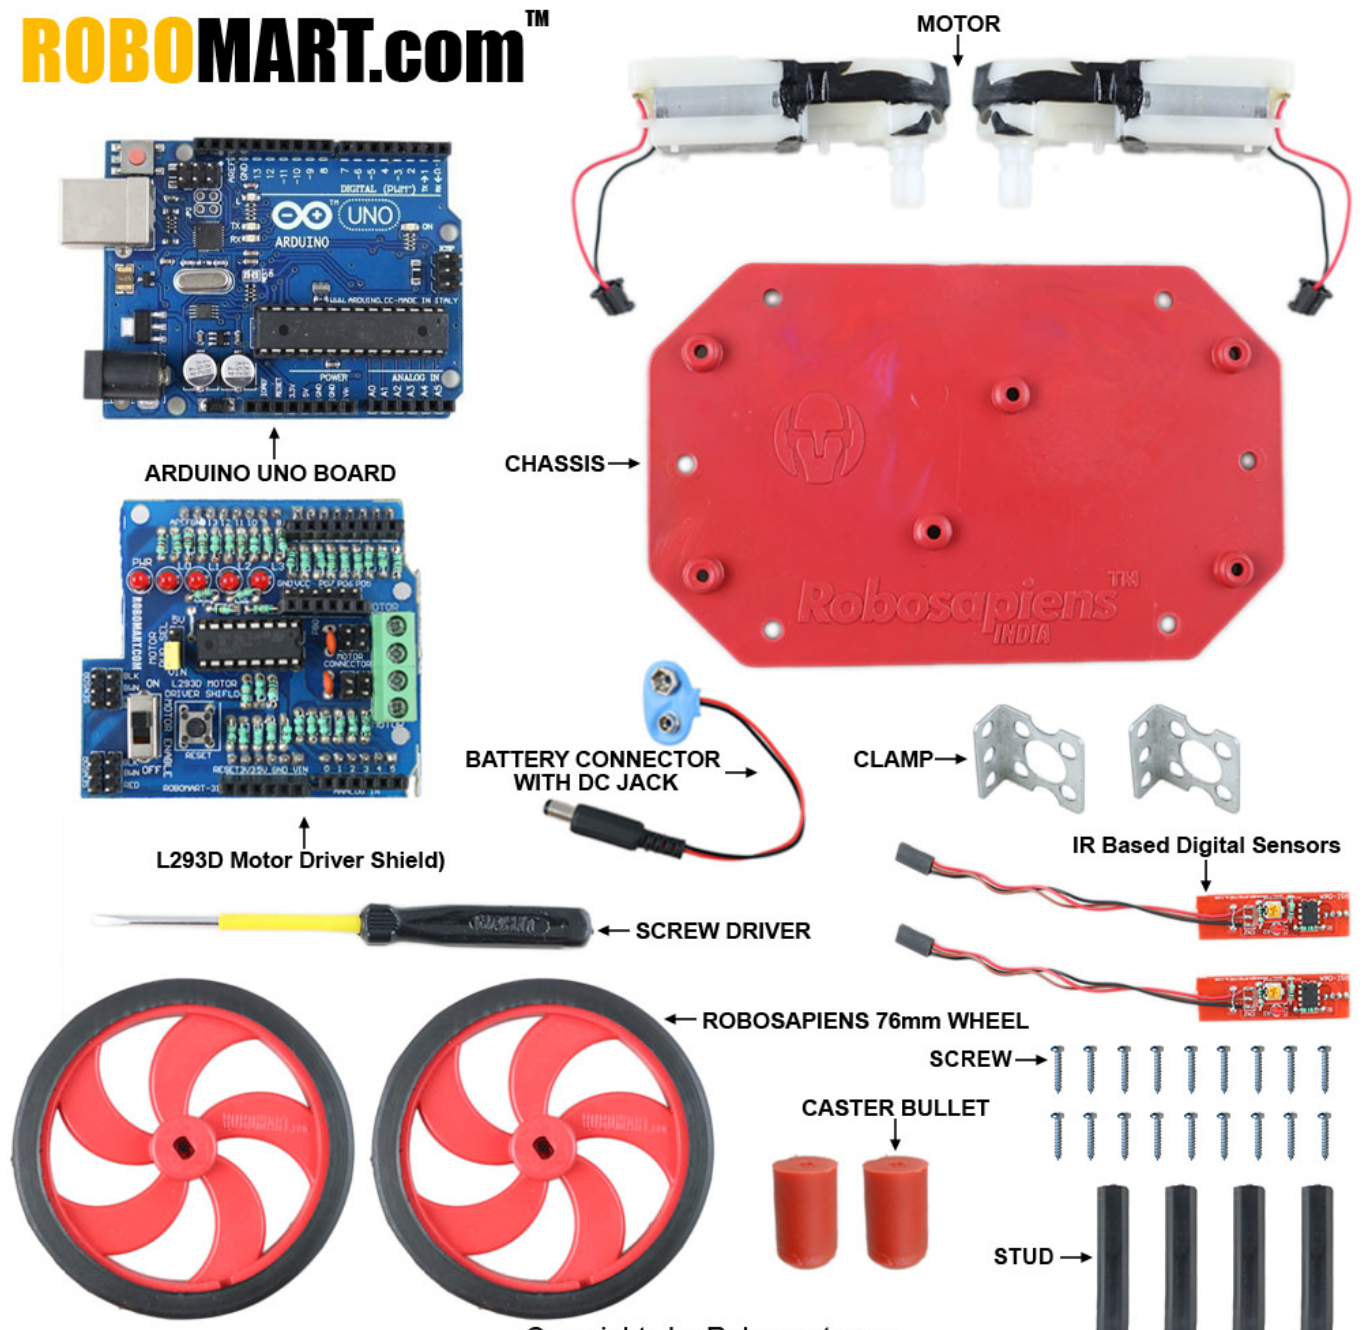

SKU : RM1093

DESCRIPTION

The Line Follower Kit Using Arduino Uno is a multipurpose robotics kit. Its multipurpose application helps in acquiring expertise on basics of robotics and also you can design any type of arduino project using this Arduino uno development board.

ROBOMART.com™

Features of Line Follower Kit Using Arduino Uno:

- Easy to learn.
- Easy of IR sensor interfacing.
- Easy of motor interfacing through L293D.
- Easy to program through USB.

Applications of Line Follower Kit Using Arduino Uno:

- It is used in Robotics projects.
- It is used in different projects for arduino.
- Line follower robot.

Note: Images shown is only for representation. The actual product may vary with the picture shown.
