DESCRIPTION

The Battery Male Female Connector Plug Set is the perfect battery connector for heavy-duty applications. Made from high-quality copper, which is metal-plated for the best performance, this plug set is designed for maximum contact between the connector surfaces. More connection area means more power! Battery Male Female Connector Plug features a split-input power plug and heavy-duty receptacles. This allows for a clean and tight plug connection for the ultimate power with little to no losses due to resistance and heating.

Specification of Battery Male Female Connector Plug Set:

- Designed for high-current, low-resistance operation.
- High-quality materials for unmatched performance.
- Developed for consistent and easy installation.
- Reverse polarity protection.
- Compact and lightweight design.

Applications of Battery Male Female Connector Plug Set:

- It is used in battery for device charging & power supplying.

Note: Please do not use powerful AAA battery for transmitter, normal battery will be fine, otherwise may cause transmitters getting hot and burned.
