

PRODUCT NAME : 5 inch Touch Screen
LCD for Raspberry Pi with HDMI
Interface

PRICE : Rs 2,950.00
SKU : RM1326

DESCRIPTION

Features

- 800x480 high resolution
- Directly-pluggable into any revision of Raspberry Pi (only except the first generation Pi model B which requires an HDMI cable)
- Driver provided (works with custom Raspbian directly)
- HDMI interface for displaying, no I/Os required (however, the touch panel still needs I/Os)
- Back light control to lower power consumption
- High quality immersion gold surface plating
- Not only the Pi, you can also use it with any other Mini-PCs like Cubieboard, Marsboard (resolution is limited depending on the board, and touch panel is unavailable)

Package Contains:

5 inch HDMI LCD x 1

HDMI connector x 1

Touch pen x 1

RPi screws pack (4pcs) x 1

DVD x 1
