

PRODUCT NAME : Raspberry Pi ARDUINO
Shield Add-On

PRICE : Rs 489.00

SKU : RM1361

DESCRIPTION

Raspberry Pi ARDUINO Shield Add-On

Overview

Compared to Arduino, it's hard to find the shields and electronic brick customized for Raspberry Pi. This RPI Arduino Shield Add-on has extended 32pin connector of RPI to Arduino pins, which will facilitate connections to all kinds of arduino shields. Meanwhile, two groups of electronic brick interfaces are equipped on the add-on, which are free to be connected to various electronic bricks.

We do not only offer this convenient add-on for Raspberry Pi, but also provide an SDK that help you transplant divers of Arduino into Raspberry Pi. After installing the SDK, you can drive this add-on as easily as you do on Arduino.

This product is compatible with Raspberry Pi B+ as well.
