

PRODUCT NAME : Razberry z wave controller for the raspberry pi

PRICE : Rs 6,999.00

SKU : RM1363

DESCRIPTION

Introduction:

The RaZberry turns every [Raspberry Pi](#) into a Z-Wave **Home Automation Gateway**. The bundle of hardware and precompiled Z-Wave wireless network management software waits to be completed by your own user interface running in a web browser or a mobile phone.

The Z-Wave software offers an easy to understand and easy to use interface applying the well-known JavaScript interface technology JSON on a built in web server. Writing your own home automation app was never easier and never more affordable.
