

PRODUCT NAME : MEGA 2560 R3 5V Servo motor Starter Kit With Basic Arduino Projects

PRICE : Rs 3,599.00
SKU : RM2166

DESCRIPTION

This is the new Robomart Starter Kit, developed specially for those beginners who are interested in Arduino.

What will you got:

*the Servo motor

*the latest Robomart UNO R3 development board

*the 1602LCD

*the Robomart Prototype Shield ProtoShield Mini Breadboard

*the most common and useful electronic components

*the detailed tutorials with basic projects

*the complete Arduino project source codes

The kit has more than 16 projects for the beginners. This is the new Robomart MEGA2560 R3 Starter Kit, developed specially for those beginners who are interested in Arduino. You will have a complete set of Arduino's most common and useful electronic components. What's more. We will offer you a detailed tutorials including project introduction and their source codes. You may learn about Arduino through using these basic projects. This kit will help you control the physical world with sensors.

Kit Contents:

1x Arduino Mega2560

1x SG90 Mini Servo Motor

1x Prototype Shield

1x 1602 LCD

1x USB Cable

2x Buzzer

6X Single Digit Common Cathode Seven Segment Display

1x LM 35 Temperature Sensor

1x 74HC595

1x Infrared Remote

1x Tshop

3x Small LDR

1x Potentiometer

2x Tilt Sensor

4x Tactile

1x Black IR LEd

1x Cell Box

Resistors

Breadboard & Jumper Wires

Leds

1x 8*8 Led Dot Matrix
