

PRODUCT NAME : Glass Fiber Flight Controller Anti-vibration Set Shock Absorber APM/KK/MWC

PRICE : Rs 399.00
SKU : RM0181

DESCRIPTION

This **Glass fiber Anti-Vibration Set with shock absorber** for **Quadcopter Flight Controller** is a Light and sturdy External chassis mounting assembly that is suitable for building a Quadcopter with components available on our Website and is also a must buy for beginners and enthusiasts for building your very own Quadcopter.

Features of Glass Fiber Flight Controller Anti-Vibration Set Shock Absorber APM/KK/MWC.

- Light Weight.
- Vibration Resistant with included Shock absorbers.
- Shock Absorber material: Synthetic Rubber.
- Chassis Material:**Fiber Glass.**

Applications of Glass Fiber Flight Controller Anti-Vibration Set Shock Absorber APM/KK/MWC.

- Quadcopter assembly.
- DIY projects requiring **Vibration Resistant Device mounting on Quadcopter.**
