

**PRODUCT NAME :** LM386 Audio Amplifier Module 200 Times 5V-12V Input 10K Adjustable Resistance

**PRICE :** Rs 125.00  
**SKU :** RM2201

## DESCRIPTION

Description:

- Onboard LM386 Chip
- 20 multiplier benefits circuit design
- on-board speaker wiring Block
- on-board 10K variable resistor, you can adjust the volume of the enlarged
- Onboard power indicator
- the chip pin leads, can be directly input audio signal
- Operating voltage: 5 ~ 12V

Package Included:

1x LM386 Audio Amplifier Module
