

PRODUCT NAME : Robomart Nano V3 Pressure Sensor Starter Kit with Basic Arduino Products

PRICE : Rs 2,999.00
SKU : RM2227

DESCRIPTION

This is a great kit which is easy for Arduino fans and starters to plug and play; This kit includes a Robomart Nano V3 and most common and useful electronic components; This is also for users and geeks who have sparkling ideas.

The kit has more than 16 projects for the beginners. This is the new Robomart Nano R3 Starter Kit, developed specially for those beginners who are interested in Arduino. You will have a complete set of Arduino's most common and useful electronic components. What's more. We will offer you a detailed tutorials including project introduction and their source codes. You may learn about Arduino through using these basic projects. This kit will help you control the physical world with sensors.

Feature:

- *the latest Robomart Nano R3 development board
- *the most common and useful electronic components
- *the detailed tutorials with 19 basic projects
- *the complete Arduino project source code

Package of Nano V3+Pressure Sensor Starter Kit With Basic Arduino Projects

- 1x 1602LCD
- Arduino Nano
- 1x USB Cable
- 2x Buzzer
- 6x Single Digit Seven Segment Led Display
- 1x Temperature Sensor
- 1x 74HC595
- 1x Infrared Remote Control
- 1x Tshop

- 3x Small LDR
- 1x Potentiometer
- 2x Tilt sensor
- 4x Tactile
- 1x 8*8 Led Dot Matrix
- 1x Black Ir Led
- 1x Cell Box
- Resistors
- Breadboard & Jumper wires
- LEDs
- BMP Pressure Sensor
