

**PRODUCT NAME** : Wireless PIR Motion Sensor

**PRICE** : Rs 1,200.00

**SKU** : RM2250

## DESCRIPTION

Each unit has unique 32 bit ID, which is transmitted on 433 Mhz frequency upon detection of motion of living being. The sensing concept is Passive Infrared Rays which gets triggered when there is any motion of living objects in front

## Features

Operating Frequency: 433 Mhz

Sensing Distance: 6 Meters

Trigger Type: PIR (Passive Infrared)

Battery Type: 9V standard

Active Transmit Indicator LED

Low Battery Indicator LED

- Application Ideas
- Menu selection
- Data entry for embedded systems
- Control panel

## Frequently Asked Question for Wireless PIR Motion Sensor

**Q: where to buy arduino micro**

A: robomart.com

**Q: what is price of Arduino Mini 05 without Headers**

A: Approx INR 1200 only
