

PRODUCT NAME : Nano USB to Bluetooth Dongle V2.0

PRICE : Rs 399.00

SKU : RM2955

DESCRIPTION

Tested for compatibility with the Raspberry Pi, our nano bluetooth USB Dongle v2.0 is compatible with both newer V2.0 (up to 3.0 Mbps) and the old specification V1.2 Bluetooth devices. This nano bluetooth dongle can be used to get your Pi interacting with all your bluetooth devices, such as headsets, notebooks, PDA's, handheld PC's, Digital Cameras, Printers and Mobile Phones. This is the most up to date version of the nano dongle currently available - make sure you're not caught out with older ones which might not work!

Designed with space saving in mind, this Bluetooth Dongle measures 2.2cm x 2 cm.

Installation is quick and easy, and we've put together a
