

**PRODUCT NAME** : Pimoroni Skywriter H  
AT - 3D Gesture Sensor for Rasp  
berry Pi

**PRICE** : Rs 2,699.00

**SKU** : RM3299

## DESCRIPTION

Control your [Raspberry Pi Pi 2](#), [A+](#), or [B+](#) with a flick of the wrist! The **Pimoroni Skywriter HAT** senses the position of your fingers in the air above.

Using [Pimoroni's Python API](#) you can read off the positional data (x, y, z) and common gestures like flick left, tap, and double tap.

- Electrical near-field 3D/gesture sensing
- 4-layer PCB for best sensing performance
- Senses from up to 5cm away
- Full 3D position data and gesture information (swipes, taps)
- Comes fully assembled
- [Full Python API](#)
