

PRODUCT NAME : Led Dot Matrix Module With Display Control for Arduino/Raspberry-Pi/Robotics

PRICE : Rs 199.00
SKU : RM0297

DESCRIPTION

The **LED matrix module** is a display device which is used to display both Static and Dynamic Information. It is a **8X8 matrix** display device which can also multiplex with more than one LED module.

Features of Led Dot Matrix Module With Display Control

- Easy to interface.
- Serial data interface.
- Less power consume.

Applications of Led Dot Matrix Module With Display Control

- Notice board display.
