

PRODUCT NAME : Relay 12V

PRICE : Rs 30.00

SKU : RM0325

DESCRIPTION

The **12v relay** is an **electromechanical switching device** which controls the AC devices through the DC power.

Features of Relay 12V:

- Max Current: 5A AC/DC (max).
- Max Voltage: 250V AC/30V DC.
- Nominal Voltage: 12V.
- Coil resistance: 270Ω.
- Coil Current: 44.4mA.
- Operating Voltage: 8.6 to 21.6V.

Applications of Relay 12V:

- DIY projects.
- Electrical/Electronic major or mini projects.
