

PRODUCT NAME : USB Connector Female
B Type

PRICE : Rs 15.00

SKU : RM0331

DESCRIPTION

The **B-type USB female connector** is designed for use on USB peripheral devices. The B-style interface is **squares in shape**, and has slightly beveled corners on the top ends of the connector. Like the A connector, it uses the friction of the connector body to stay in place. The **B-socket** is an "upstream" connector that is only used on peripheral devices.

Features of USB Connector-Male B Type:

- Solves mismatched **USB connector** combinations.
- Molded construction provides durability.
- Gold plated contacts provide reliable connections with repeated mating cycles.
- Easily convert existing cables to your needs.
- Available in ten connector combinations.

Applications of USB Connector-Male B Type:

- **PC Peripheral Interconnects.**
- Test and Measurement.
- **Data Acquisition.**
