

PRODUCT NAME : Multi Purpose PCB Board (10 x 10) c.m.

PRICE : Rs 70.00

SKU : RM0115

DESCRIPTION

The **Multipurpose PCB Board** is a useful tool for developing prototypes for new projects and building a circuit from 0 level. Requires medium level of **Circuit Construction Level Knowledge**. The Board is a strong and clear epoxy type board with pre-drilled mounting holes. The oxide free surface allows easy soldering and strong tin hold.

Features of Multi Purpose PCB Board (10 X 10) C.M.

- Clear Epoxy material.
- Oxide free copper surface.
- Pre-drilled holes for easy mounting.
- Best size for making custom modules.

Applications of Multi Purpose PCB Board (10 X 10) C.M.

- Circuit Prototyping.
- Custom circuit development
- Compatible to 60W soldering iron
- Multiple DIY projects and circuit construction.
