

PRODUCT NAME : Piezo Buzzer (B 10N)

PRICE : Rs 15.00

SKU : RM0338

DESCRIPTION

A **buzzer** or beeper is an audio signaling device,[1] which may be mechanical, electromechanical, or piezoelectric. Typical uses of buzzers and beepers include alarm devices, timers and confirmation of user input such as a mouse click or keystroke.

Features of Piezo Buzzer (B 10N):

- Use of high-performance **piezoelectric elements** to meet loud sound volume and wide frequency range needs.
- High quality achieved by integrated in-house production, from piezoceramic materials to buzzers.
- Clear, pleasant electronic tone.
- Reliable, effective operation in a wide variety of equipment and ambient conditions.
- A wide, convenient selection from elements to complete buzzer products.

Applications of Piezo Buzzer (B 10N):

- As an audible **indicator**.
- In Multiple **DIY projects** requiring audible notification.
