

PRODUCT NAME : C945 NPN Transistor
(Pack of 5)

PRICE : Rs 20.00
SKU : RM0383

DESCRIPTION

A **C945 transistor** is a type of NPN bipolar junction transistor. Circuits where a low-current, high-speed transistor is required will employ a transistor such as C945 transistor. Circuits such as a **small-signal amplifier** or a high-speed switching circuit might employ one or more C945 transistors.

Features of C945 NPN Transistor:

- Power dissipation=0.4W($T_{amb}=25^{\circ}C$).
- Collector current(I_{cm})=0.15A.
- Collector-base voltage(V_{cbo})=60V.
- Operating and storage junction temp. range=-55 to 150°C.

Applications of C945 NPN Transistor:

- DIY projects.
- Electrical/Electronic mini or major projects.
- Amplifier purposes.
- Switching purposes.
