

PRODUCT NAME : 30 Amp Cartridge Miniature Fuse (6mmx31mm)

PRICE : Rs 6.00

SKU : RM0439

DESCRIPTION

In electronics and electrical engineering, a fuse is a type of low resistance resistor that acts as a sacrificial device to provide over current protection, of either the load or source circuit. It's essential component is a metal wire or strip that melts when too much current flows through it, interrupting the circuit that it connects. Short circuits, overloading, mismatched loads, or device failure are the prime reasons for excessive current. Fuses are an alternative to circuit breakers.

Features of 30 Amp Cartridge Miniature Fuse:

- Size: 6MMX31MM.
- Current rate: 30 Amp.
- Ease of installation.

Applications of 30 Amp Cartridge Miniature Fuse:

- All electronic devices.
-
