

PRODUCT NAME : Desolder Wick

PRICE : Rs 15.00

SKU : RM0473

DESCRIPTION

De-solder Wick is a fine mesh of flux-coated, copper strands that absorbs solder when heated to remove the solder and components.

Features of De-solder Wick:

- Highest copper braid features fast absorption of solder.
- Shorter heat time enables to protect sensitive PCB.
- No cleaning process required and leaving less residue of flux on circuit board.

Applications of De-solder Wick:

To de-solder components from:

- Mother board.
- DIY projects.
- Arduino projects.
- Raspberry-Pi projects.
- Electrical/Electronic projects.
