A **Hand Drill Machine** is a tool fitted with a **cutting tool** attachment or driving tool attachment, usually a **drill bit** or driver bit, used for drilling holes in various materials or fastening various materials together with the use of fasteners. The attachment is gripped by a chuck at one end of the drill and rotated while pressed against the target material. The tip, and sometimes edges, of the cutting tool does the work of cutting into the target material.

Features of Hand Drill Machine:

- Requires no Electrical Power.
- Support all size of drill bits.

Applications of Hand Drill Machine:

- DIY projects requiring PCB drilling.
- PCB drilling kits.
