

PRODUCT NAME : Multi Purpose PCB Board (8 x 12) c.m.

PRICE : Rs 60.00

SKU : RM0563

DESCRIPTION

This is a multipurpose PCB or we can say that Vero board or zero size PCB is a copper clad laminated board used in various electronic fields for circuit designing and testing.

Features of Multi Purpose PCB Board:

- 2.75mm pitch length.
- 4 corner mounting holes.
- Round solder pads on bottom.
- Rows and columns printed on top.
- Can be cut to fit your project (Wear safety glasses).
- Use in multipurpose circuit.
- Easy Implementation.

Applications of Multi Purpose PCB Board:

The pcb is used in various project designing and testing.

Electrical/electronic projects.

AVR/Arduino/Raspberry-pi projects.

Robotics projects.
