

PRODUCT NAME : 16 Way XD 62B TTP 22
9 Capacitive Touch Switch Digital
al Sensor Module Board Plate

PRICE : Rs 299.00
SKU : RM0578

DESCRIPTION

This is a 16 Way XD 62B **TTP229 Capacitive Touch Switch** Digital Sensor Module Board Plate used in various switch controlled applications.

Features of 16 Ways Capacitive Touch Switch:

- Onboard TTP229 capacitive 16 key touch induction IC.
- Onboard power light.
- Working voltage: 2.4 V to 2.4 V.
- Modules, you can set the output mode, key output mode, the longest time and fast/low power output.
- PCB board size: 49.3 (mm) x 64.5 (mm).

Applications of 16 Ways Capacitive Touch Switch:

- Password based door locked system.
- Touch remote controlled robot.
- AVR based projects.
- ARM based projects.
- PIC based projects.
- Arduino based projects.
- Raspberry-pi based projects.
- Android based projects.
