

PRODUCT NAME : GY-85 BMP085 Sensor
Modules 9 Axis Sensor Module IT
G3205 + ADXL345 + HMC5883L

PRICE : Rs 1,099.00
SKU : RM0595

THIS PRODUCT MAY BE COVERED BY TRADE MARKS. Copyrights by Robomart.com

DESCRIPTION

The 9 axis sensor module is a combination of 3 axis gyroscope + 3 accelerometer + 3 axis magnetic field (ITG3205 + ADXL345 + HMC5883L) Immersion on a PCB. It will be interface with the microcontroller with I2C protocol.

Features of 9 Axis Sensor Module ITG3205 + ADXL345 + HMC5883L:

- 9 axis module (3 axis gyroscope + 3 accelerometer + 3 axis magnetic field).
- Immersion Gold PCB process.
- Chip: ITG3205 + ADXL345 + HMC5883L.
- Power Supply :3-5v.
- Communication: IIC communication protocol (fully compatible with the 3-5v System, circuit LLC is contained).
- Size: 2.2cm * 1.7cm.

Applications of 9 Axis Sensor Module ITG3205 + ADXL345 + HMC5883L:

- These types of fuses are normally used in various robotics application.

Also Searched as : **9 axis sensor online in india, GY 85 BMP085 Sensor Module, 9 axis sensor fusion, bosch 9 axis sensor, 9 axis sensor arduino, 9 axis motion sensor, sensor module definition, sensor module in virtual keyboard.**
