

PRODUCT NAME : Robosapiens IR Wireless Remote Control Kit V 3.0

PRICE : Rs 2,499.00

SKU : RM0850

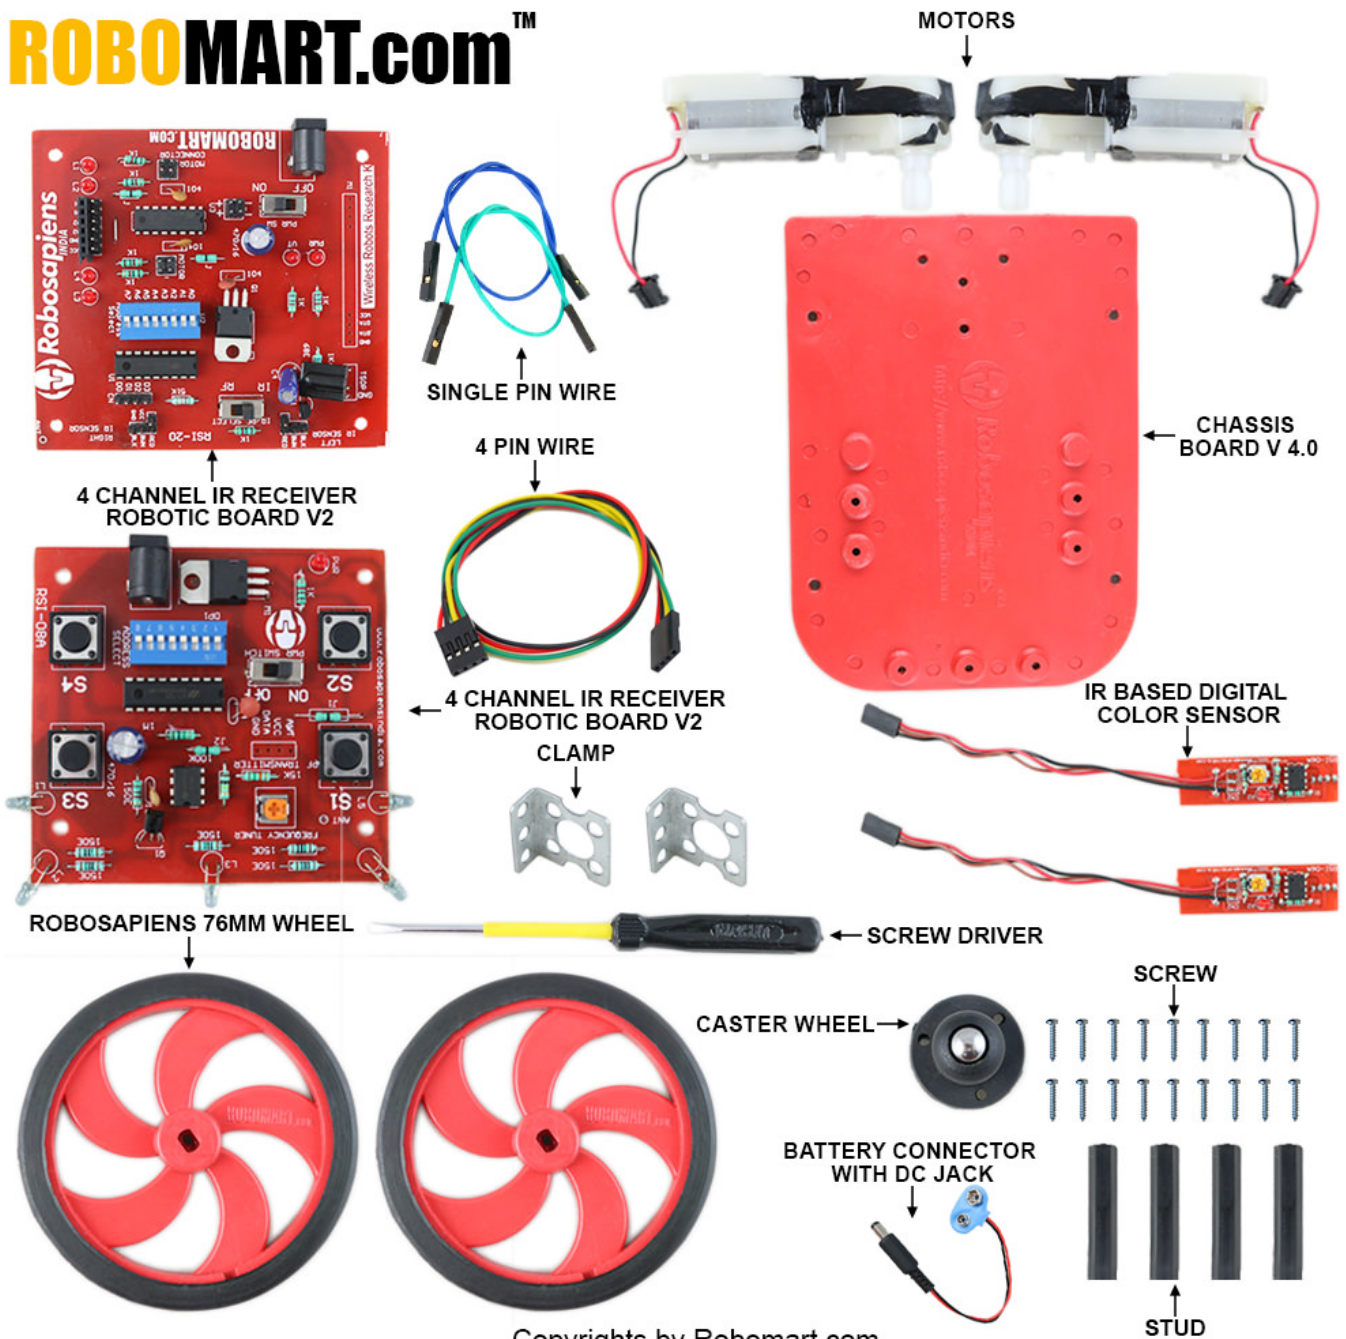

DESCRIPTION

This is an IR based wireless robotic kit having both transmitter and receiver. Best for Engineering/ Non Engineering Projects and for kids above 12 years of age for entry level exposure to electronics devices design and operation basics.

Features of Wireless Remote Control Kit V 3.0.

- Onboard remote switch.
- Ease to use.
- Long range: 10 meter.

Applications of Wireless Remote Control Kit V 3.0.

- It is used in Electronic projects.
- Wireless robotics projects.
- Robotic projects using 8051/AVR/PIC/ARM/NXP/Infineon microcontroller.

Kit Content of Wireless Remote Control Kit V 3.0.

- 1x (4 Channel IR Receiver Robotic Board V2)
- 1x (4 Channel IR Transmitter Robotic Board V2)
- 1x (Screw driver)
- 1x (High Quality Plastic Chassis Board)
- 1x 4 pin wire
- 2x Single pin Wire
- 2x (IR Based Digital Sensors)
- 1x (Caster Wheel)
- 4x (Support Studs)
- 1 Pair wheel 70mm Diameter
- 1 Pair D.C gear motors (BO2-150RPM)
